

Premium Handcrafted Cables
& Custom In-Ear Monitors
2018

nocaudio.com

Founded in 2014, we strived to create the most value-for-money custom headphone & earphone cables.

Each cable is meticulously built to the customer's requirements, from customized lengths to connector type.

In 2017, we have taken the next step forward by introducing our own line of Custom In-Ear Monitor products.

Our philosophy to deliver high performance audio at affordable prices has never changed since the day one.

Celestial Series

Each cable handcrafted to perfection,
tailor-made to specific requests if necessary.

Designed to provide the best performance at
a more affordable cost than the competition.

To put it simply, these are the best value-for-money
performance cables you are going to find.

- Available in Custom or Universal Fit

nocturnal

“ Instruments sound realistic, the percussion’s timbre, especially cymbals, is spot-on and realistic”

“ The Atlantis’ tonal tuning is well made and appealing... This is exactly what you would expect from a well-tuned in-ear”

2017 Editor’s Choice of the Year Award

-HiFi Chris, Chris’ Kopfhörer-Lounge

“ UERM does sound more ‘natural’ to my ears, but the Atlantis has its strengths in sheer clarity, energy, and a slightly thinner & faster signature “

“ Vocals are open, airy and have a quality of sharpness to them, which gives them a nice resolving edge to their tone.”

-crinnacle, Headfi.org

ATLANTIS

- Quad Balanced Armature
- 3-Way Crossover
- 1 x Low | 2 x Mid | 1 x High
- Triple Sound Bore Design
